SUMMARY

My Name is Tyas Anugrah Rochmat. I am an Android Developer. I have a Bachelor of Information Technology from Telkom Institute of Technology. In my free time, i work on my own projects and study about the software development. I am both driven and self-motivated, and i am constantly updating my skill set. I am very passionate about Android Development, and strive to better myself as a developer.

I am seeking for an opportunity to pursue a challenging career and be a part of progressive organization that gives a scope to enhance my knowledge and utilizing my skills towards the growth of the organization. I enjoy being challenged and engaging with projects that require me to work outside my comfort and knowledge set, as continuing to learn new development techniques are important to me and the success of the organization. I truly believes become a part of the organization I am able to increase my expertise and improve my understanding of how layers of a large project come together.
